Descripción del circuito:

The **Casablanca Valley** will impress you with its captivating landscape and the quality of its wines. This privilege valley of Mediterranean climate (due to its proximity to the sea) is perfect, especially for white wines. The Casablanca Valley wines are exported all over the world and are of excellent quality, the best known of this valley are: Sauvignon Blanc, Chardonnay, Pinot Noir and Syrah.

We will visit a prestigious vineyard and we will take a tour to learn in detail the process of winemaking and we will taste them (includes two wine tastings). After the tour we will enjoy a delicious lunch menu at the same vineyard including 2 glasses of wine, starter, main course, desert, coffee or herbal infusion and tips.

We will travel back to Valparaíso to continue with our culinary experience... a practical and entertaining Chilean cooking class.

Chilean Cuisine Cooking Classes are fun and hands on. We will prepare and cook together in a friendly informal environment and give special tips to help you reproduce each dish at home. Each class begins with a discussion with your chef/teacher about the menu to be prepared and then you visit the fresh food markets together for the ingredients.

In every class we prepare pisco sour, empanadas, pebre and ensalada chilena plus an entree, main course and dessert of your selection. Whatever you choose to prepare for your meal will be accompanied by a quality local wine selected to complement the food.

We will provide simple, easy to follow recipes for everything that you prepare so that when you return to your friends and family you will be able to reproduce a complete, high quality, traditional Chilean meal.

At the end of the class, our driver will transfer you back to your hotel.
